

NEWSNOTES CONDENSED

A Boiling Down of the More Important Events Here and There

Washington.

Chico Baca, who was one of Avelar's closest supporters, has resigned as minister general of the Madrid cabinet in Nicaragua, according to advices sent to the state department.

William Pittman, the American engineer captured by Madrid and confined in a prison cell in Managua, is reported by American Consul Olivares at Managua to be ill with malarial fever, although his condition is said not to be serious.

The application of the supposedly financial ruling of President Taft in what constitutes whisky, may be suspended for some time as the result of Louisiana courts acting on a petition of representatives of the so-called whisky trust.

Unless further neglect and mistreatment is shown by the Madrid government toward William Pittman, the American engineer now held in Managua as a prisoner of war, the state department will leave his case in the hands of United States Consul Olivares in Managua.

The interstate commerce commission announced Monday that the recently filed tariffs making advances in the freight rates on cattle and dressed beef between Chicago and New York had not been suspended. The matter arose through an inquiry from an important New York business house as to the proposed rates.

Foreign.

The elaborate funeral given King Edward cost the nation \$202,500, as is shown in the supplementary financial estimate.

Dr. Leslie Dodd Ward of Newark, N. J., vice president of the Prudential Insurance company, died in London. Dr. Ward was not in good health when he sailed from New York and his condition gradually grew worse after his arrival in London.

At Cracow, Galicia, a great three-day national Polish festival in celebration of the 500th anniversary of the battle of Tannenberg, in which the Polish and Lithuanian army defeated and broke the power of the Teutonic order began with the unveiling of a monument to King Ladislaw Jagello.

The Glasgow board of trade return shows that during the five months ending May 31, no fewer than 29,535 passengers left the Clyde for places out of Europe. Of these 41,401 were bound for the United States and 15,055 for Canada, thirteen for Australia, and sixty-six for other places. In the month of May alone 4,603 left for Canada and 2,837 for the United States.

Prosecutions against manufacturers of ice cream cones containing borax are to be instituted by the government under the pure food law. Large seizures of cones were made recently in different parts of the country by inspectors of the department of agriculture. Analysis of the cones seized disclosed the presence of borax, a property which has been held to be deleterious to the human stomach.

Military aviators engaged in a mimic aerial battle at Vincennes, the Blues, representing the attacking force, beat the Reds, the defending force. Both forces carried guns to a height of 100 meters (about 325 feet).

Mutsuhito, emperor of Japan, has telegraphed to President Taft that it was a great pleasure to him to have the opportunity of seeing Jacob M. Dickinson, the American secretary of war, on his recent visit to Tokyo when the secretary was shown every courtesy by the Japanese officials.

General.

Senator Bristow says Kansas is not taking Speaker Cannon seriously.

President Taft has taken the conservation policy in his own hands. Miss Katie Tomara of Chicago, 21 years old, was seriously wounded after a struggle with a burglar whom she discovered in her bedroom.

W. F. McCarey, postmaster at LeGate, Love county, Okl., ended his life by drinking carbolic acid. A post-office inspector told McCarey that he would go through the office records. When he went to the office he found McCarey dead.

In this war becomes a new problem by reason of the achievements of aeroplanes.

With the purpose of contributing to the development of Northwestern California, the department of agriculture has offered to sell about 1,000,000 feet of timber in the Trinity national forest in that state.

President Woodrow Wilson of Princeton university announced that he would accept the democratic nomination for governor of New Jersey if he were convinced that a majority of the party sincerely desired him to run.

Secretary of Commerce and Labor Nagel and Attorney General Wickersham are going to Alaska to find out whether the Guggenheims or the United States own that territory.

Another Central American revolution is imminent. This time Honduras is to be the battle ground and President Davila is to meet in combat his old opponent and former president of the republic, Manuel Bonilla.

Eugene Ely, an aviator, in his third attempt to fly between Winnipeg and Portage La Prairie, fell a distance of several hundred feet and was picked up in a dying condition on the prairie.

Roosevelt will aid Senator Beveridge in his fight for re-election. The health of the German emperor is said to be greatly impaired. A strike of conductors and train men was called on the Grand Trunk line.

It is said the next lower house is not necessarily lost to the republicans. The Oklahoma crop situation shows an improvement of 75 per cent over any previous year.

There will be no strike on the Pennsylvania railroad, the dispute being settled by a conference. The convention of the American association of Ad. clubs opened in Omaha with 500 in attendance.

Rhode Island shows increased population, but not enough to give the commonwealth another congressman.

At Clinton, Ill., Chief of Police John Struble was shot about midnight by an unknown man and died in a short time.

Daniel Kinet, the Belgian aeronaut who fell when the rudder of his aeroplane broke, died from his injuries.

A Lincoln, Nebraska man has invented a bucket which may revolutionize methods of excavating and hoisting.

The crop report for Germany, which gives conditions up to July 15, shows a slight depreciation since June 15.

Prince John Charles Francis, the youngest child of King George and Queen Mary, celebrated his fifth birthday.

Drouth in the northwest is seriously affecting the cattle men, threatening them with great losses and possibly with financial ruin.

The Baltimore Eastern League baseball club has sold Pitcher "Lefty" Russell to the Philadelphia American League team for \$12,000.

Congressman George W. Norris of the Fifth (Nebraska) district has his name filed as a candidate for renomination on the republican ticket.

Plans for the establishment of a bureau of railway economies at Washington, D. C., by the railroads of the country were announced at Chicago.

The Wisconsin prohibition platform contains clauses denouncing both local and county option as not being a settlement of the liquor problem.

An aeronaut named Andrews fell 100 feet when his balloon burst at Lake Manawa, Iowa, but was saved from death by falling into the branches of a large tree.

At Enid, Okla., guests of the City Hotel fled in their night clothes when the hotel and an adjoining structure was destroyed by fire. Several of the guests were slightly injured.

At Omaha Samuel C. Dobbs was re-elected by acclamation president of the Associated Advertising Clubs of America and after a grueling fight Boston was awarded the next convention.

Chico Baca, who was one of Avelar's closest supporters, has resigned as minister general of the Madrid cabinet in Nicaragua, according to advices to the state department.

Colonel Roosevelt, as well as Clifford Pinchot, has been asked to be in Atlanta, October 7, when a meeting will be held for the purpose of organizing a state conservation association.

Officials of the Iowa State Teachers' association announced that Colonel Theodore Roosevelt will speak at the meeting of the association in Des Moines Friday night, November 11.

For the first time since he returned to Kansas, United States Senator Joseph L. Bristow, in a speech at Olathe, Kans., referred to the fact that he has been denied patronage by President Taft.

Edward A. Thompson, who is charged by his former fiancée, Miss Warren of New York, with disappearing on October 6, 1909, the day set for their wedding, with \$1,750 of her money, was arrested in Minneapolis.

At Hamburg, thirty-five thousand ship yard workers united in a demand for an increase of 10 per cent in wages and a fifty-three-hour week.

President Taft was highly pleased when he received a letter from Secretary of the Treasury MacVeagh, stating that the splendid showing of federal finances announced on June 30 last, had been improved by revised returns showing additional receipts of \$5,500,000.

To race with the British expedition under Captain Scott to the south pole, a Japanese sailing vessel of 200 tons carrying Lieutenant Shirase and the Japanese expedition to the Antarctic will leave Tokyo bay on August 1. The expedition will proceed via Benin Islands and Australia.

Personal.

Cannon declares he is in the speakership fight to stay.

Ex-Vice President Fairbanks addressed the association of Ad. clubs at Omaha.

Jack Johnson, the pugilist, was arrested in New York for automobile speeding.

It is rumored that the investigating committee has decided to exonerate Ballinger.

President Taft does not care to mix in the politics of the different state conventions.

William Flegge was arrested at Wayne, Neb., charged with the murder of his sister.

Major Manuel Costa has been appointed military attaché to the Argentine legation at Berlin.

The Lorimer scandal will be the paramount issue in the campaign in Illinois this summer and fall, according to politicians from that state.

The death at New Orleans of J. Parker Harrison, removes a figure known for many years as one of the leading trial operators of the continent.

James E. Clay, a descendant of the "great commoner," Henry Clay, and one of the most prominent breeders of running and trotting horses in Kentucky, died last week.

Rear Admiral Cowles, brother-in-law of Colonel Theodore Roosevelt is now prominently mentioned as a possible candidate for governor of Connecticut on the republican ticket this fall.

NOTES FROM MEADOWBROOK FARM By William Pitt

Sheep are excellent farm cleaners.

The bruise on an apple is injurious.

Lice and mites come with warm weather.

Tie the grape vines to the trellis wires before the vines begin to run.

No well bred farmer ever contents himself with scrub stock or poor crops.

It is a sad mistake for a man to make a good crop of grass into poor hay.

Pure fresh air, day and night, is one of the prime essentials for keeping fowls in good health.

Most separators do their best work with the milk at a temperature of from 85 degrees to 95 degrees Fahrenheit.

When the cream has been held at churning temperature for a period of two or three hours, it is ready to be churned.

A good way to keep manure for the garden is to fill a large box, turning it over with a fork about once a week and keeping it moist.

The government is sending out experts to various parts of the country to teach fruit growers the best methods of spraying their trees.

When shrubs are first planted they should be headed back one-half or more, but after they become established they should be allowed to branch at will.

One of the prominent symptoms of shoulder lameness in horses is a difficulty of lifting and extending the limb, which is particularly noticeable when the patient is urged to trot.

The flea beetle is a small, metallic blue insect which is destructive to the fruit both as the larva and the adult. Spraying with arsenate of lead or paris green is generally effective.

Some of the amber honeys are made from the aster, goldenrod, honeysuckle, queen of the meadow, heartsease, wild sunflower, Spanish needle, sun-mallow, magnolia and marigold.

The earliest sown lettuce should be of some of the loose growing varieties. For summer use plant cabbage lettuce, or heading varieties, as the leaves during the warm season will be whiter and more crisp.

Soy beans shed their leaves before the grain begins to ripen; therefore when hay is desired the plants must be cut when half or more of the pods are fully grown, but before the beans begin to harden.

In cutting rape for soiling it is best to cut about four inches from the ground. It is advisable to arrange the cutting so that each day's product will be consumed within that time, as the foliage soon withers and is then not relished so much.

The sitting hen must not be disturbed. If eggs are laid in the same nest with those that are hatching it is often difficult to tell the fresh one from the others, hence partly hatched eggs are taken out instead of the fresh ones.

It is a well known fact among farmers and fruit growers that blackberries improve the physical nature of the soil through their root action. When they are removed from the apple orchard the soil is left in ideal condition for the outer feeding roots of the apple trees.

While it is conceded that permanent maintenance of soil fertility without live stock is possible, it is not practicable as a statewide policy, because it is not the highest type of agriculture and because few farmers can be induced to comply with all the conditions necessary to make it effective.

Plant canna one to two feet apart, depending altogether if they be dwarf or the tall-growing sort. They like very rich soil and plenty of water during the growing season. A mulch of straw manure will help to conserve the water that is given them. Cut off all the seed pods as they form.

Root plants may be transplanted, but it is not advisable unless it were in the case of extra early beets started in the hotbed or turnip-rooted radishes lifted out at thinning time. The roots are usually ill shaped, yet their table quality is not injured. Long varieties always become distorted and are not marketable.

What a marvelously delicate machinery is set in motion when we smell the fragrance of a rose! Simple as that pleasurable sensation seems to us, it involves the activity of most remarkable agencies and forces. It has been shown that the minute cells at the ends of the olfactory nerves in the nose bear the most delicate little hairs, and it is believed that these hairs are the active agents in producing the sense of smell.

Yet when we come to inquire into the manner of operation of these cells and hairs, we find that it is more wonderful than the delicacy of the mechanism itself.

Ripen cream properly before churning.

There is a scarcity of good dairy cows.

The cherry tree should be headed low.

Feed all of the hens all they will eat of wheat and other nourishing feeds.

A very important part of dairying is to make it profitable all the year around.

Preventive and destructive measures are both necessary in combating hog lice.

The number of hogs per acre depends on the stand of clover, the season and the earliness of turning in.

In order to keep fowls healthy we must breed for health just as we would for any other desired quality.

For feeding lambs to be used for breeding purposes preference should be given to bran, oats and linseed meal.

When the young poult begin to get their long wing flight feathers, they require extra care and attention.

For two or three years after planting, the ground among ornamental shrubs should be spaded and the surface cultivated to keep down weeds and grass and to conserve moisture.

Some states prohibit the importation of dairy and breeding cattle until they are tuberculin tested, but permit as yet unrestricted sale of stock within its boundaries.

Rape is especially valuable for breeding ewes in midsummer, when the pastures begin to fail, as the succulent feed keeps up the supply of milk for the lambs.

Never overfeed or feed pepper or other condiments to the hens you expect to furnish eggs for hatching. If you do, infertile eggs and weak chicks will be the result.

The Wisconsin experiment station finds lime is deficient in much of the grain ration fed to dairy cows and hogs. Hogs fed on phosphates and bone mash, made consistent and profitable gains.

The table value of both lettuce and radishes depends largely upon a quick growth under moderately cool conditions. For this reason the soil should be very fine of texture and fertile to stimulate the most rapid growth.

Do not put more than 50 chicks in one brooder, or one compartment, and better results will be secured with a smaller number. Overcrowding is the cause of many deaths in the brooder.

A grape vine to bear well must be cultivated and carefully pruned each year, cutting back to two, three, or not more than four canes, and carefully pinching off surplus young shoots during the summer.

There is something in suiting the corn to the soil. Trying to suit the soil to the corn is a tough proposition, as many a man who has tried corn adapted to bottom soil on thin upland has found to his sorrow.

The poultry products of the United States are just on a par with wheat and hay. The combined value of the three last year was around two billion dollars, an average of over 671 millions each.

Do not oppose the cow's appetite. She knows what it takes to make a balanced ration better than any feeding standard. If she does not like bran and corn, give oats and corn. If she is tired of fodder for all means try a little clover hay.

It has become an accepted fact generally that it is better to tend a small piece of ground well than to plant large fields and give them only half the cultivation. Intensive farming means simply making the utmost of what ever you work with.

Where manure is accumulated in stables and lots, and is properly saved, it goes on the land more evenly, as a rule, which is an important consideration, where a man is endeavoring to keep up the land's fertility and get as much out of it as possible at the same time.

The floor and walls of the dairy barn where the cows are milked must be free from dust and dirt; the cows must be brushed and their udders sponged off with a damp cloth previous to milking and the milkers must have clean hands and clothes.

Always market your butter regularly at current market prices. Give your customers pure, sweet, fresh butter and your reputation as a good butter maker will soon be established. When your butter is held until it is old and stale it is not wanted and your reputation suffers as well as your pocket.

A foal may be raised on cow's milk if the latter is sweetened with sugar or molasses at the rate of two teaspoonsful per pint and three table-spoonsful of lime water are added at first. Give a cupful every hour at first and gradually increase amount and decrease meals to six and then to four meals a day.

MOVEMENTS OF TAFT

PRESIDENT ADVOCATES REST DURING THE SUMMER.

MEN AND WOMEN NEED IT

Chief Executive Leaves Everybody Happy and Rejoiced Over His Coming.

Bar Harbor, Me.—President Taft brought his stay in Bar Harbor to a close Friday. He left as a member of a merry coaching party headed for Seal Harbor, eleven miles away.

The Mayflower steamed around to Seal Harbor to meet the president. The yacht afterward went to North-east Harbor and anchored there for the night with the presidential party on board. Sunday morning it will steam across Frenchman's Bay to the Mount Desert ferry, where Mr. Taft will take a special train to Bangor. After visiting that city for two hours and making a speech he will proceed by special train to Ellsworth, the home of Senator Eugene Hale, to be the latter's guest until Sunday afternoon. Mr. Taft will also make a little speech at Ellsworth.

The president left everybody in Bar Harbor happy. He met the townspeople on the village green and made a little speech to them. He spoke of the value of vacations and won much applause by saying that two weeks no longer sufficed for summer rest, but sixty days seemed the proper time in which to recuperate from the nerve-exhausting work of the winter. The president congratulated the people of Bar Harbor upon living in such a delightful climate. He said the summer air was like "champagne in a prohibition state," and that the severe winters tended to build up a sturdy and never surrendering race.

As soon as the president finished his speech he mounted the coach which was towed by Philip Livingston of New York and with a flourish of trumpets was away for Seal Harbor. Arriving there he and his party were entertained at luncheon by Mrs. Mark Hanna. In the evening the party was entertained at luncheon by Mrs. Charles Magnus Tower at her place two miles from the harbor.

Mr. Taft is adhering strictly to his determination to keep away from politics on this trip. There was not a suggestion of politics in his speech. He said in part:

In behalf of myself and the party who have accompanied me here I wish to return a grateful acknowledgment for your very cordial reception. The presence of the national colors and the flags on the various buildings here indicate to me what I know, that this reception is for the president of your country, and that it is more for the office than for the person who for the time being occupies the office. Nevertheless the person who occupies the office enjoys the reception all the same. One of the things which forces itself upon the minds of one visiting such a country as this is the fact that the American people have learned a good deal in the last generation.

In my father's time he thought, although a hard working lawyer, that two weeks was ample vacation time during the entire year and when I came to the bar he suggested that if I stayed at home during the summer months I would make a good deal more money than if I went away.

Congressman Fined. Boston, Mass.—Representative Jos. O'Connell of the Tenth Massachusetts congressional district was convicted in the Dorchester court of violation of the election laws of the state and fined \$20.

Sharp Break in Stocks. New York.—The stock market showed extreme weakness Friday, although the decline was not accompanied by the excitement sometimes seen at such periods. The cut in the dividend on National Lead which surprised the speculative community yesterday was the ostensible cause for the weakness. That stock broke to 48½, which was 3½ points lower than the low price yesterday. United States Steel broke into new low ground for the year at 66½ and the same was true of American Smelting.

NEGRO UNDER ARREST. Charged as Knowing Something of the Death of Rawns. Chicago, Ill.—Ernest Hoffman, a negro chauffeur, formerly employed by Mr. Rawns, was arrested here late Friday as a suspect in connection with the railroad president's death. Hoffman was discharged December last and as late as last May is declared to have threatened Mr. Rawns's life.

Prisoners for Harvest Fields. Georgetown, Ky.—A novel method to save the wheat crop of Scott county was resorted to Friday when a number of farmers appeared before the county judge and paid the fines of ten prisoners in the jail in order to get help to harvest the crop.

Hosmer H. Keith Dead. Sioux Falls, S. D.—Hosmer H. Keith, speaker of the last territorial legislature, and one of the best known attorneys of this state, died Friday, aged 64 years.

High Price for Fish Dinner. Deadwood, S. D.—It cost John Cowgill of Terry and Dave Neely of Lead \$70 each for a trout breakfast in Spearfish canyon a few weeks ago. This breakfast was made on nineteen fish which the men had dynamited out of the stream and had been detected in the act. They were followed up by Game Warden Peterson, who caused their arrest and a subsequent fine of \$50 and costs each in a local justice's court. A third man, Floyd V. Dunn was also arrested and jailed.

ALL OVER NEBRASKA

Charged With Sister's Murder. Dixon County—Charged with the murder of his sister, Miss Louis Flegge, at their home seven miles north west of Wayne on June 30 last, William Flegge was arrested and placed in the county jail at Ponca. Detectives working on the case attribute to Flegge the desire to get his sister out of the household, where she had lived with him as housekeeper for years, in order that he might marry Miss Ida Hendricks, a beautiful young woman who lives on a neighboring farm.

The case was most mysterious and baffling. William Eichtenkamp, 18 years old, was employed on the farm. It was said that he came in from work in the evening of the day of the murder and found the young woman in the door yard with a bullet in the base of her brain and another in her breast.

Flegge was arrested on a confession secured from Eichtenkamp, who it is said, asserted that he had been forced to tell the story that he had found the young woman under penalty of death by the brother, W. C. Davenport of Sioux City, a detective, who had been working on the case. He said that until the confession by Eichtenkamp no suspicion had been pointed at the brother.

The prisoner has been most assiduous in the search for the murderer and put up \$500 of the \$2,500 reward offered by the county and relatives of the murdered woman. He worked with the officers every day.

Catholic Church Burned. Greeley County—The Catholic church at Scotia was totally consumed by fire. It was a brick edifice and was quite old, and in rather poor condition. The fire broke out in the altar structure.

Cattle Struck by Lightning. Pawnee County—An electrical storm passed over the vicinity of Table Rock, during which time about an inch of rain fell. Three head of cattle, standing under a tree in a pasture just south of town, were instantly killed, when the tree was struck by lightning.

Enrollment is Large. Buffalo County—It is a case of general remark that the present summer school at the Kearney normal is the best in the history of the school. The enrollment is the largest and more students are working for credit on the regular courses than in any previous session.

C. C. Dudley Dies at Ruskin. Nuckolls County—News was received at Nelson of the death of ex-County Treasurer C. C. Dudley at his home at Ruskin of typhoid fever. Mr. Dudley had been cashier of the Ruskin bank since the expiration of his term of office three years ago. He leaves a wife and infant child.

A Woman Attacked. Adams County—Mrs. Menno Lay was attacked by an unidentified man in her home near Paulina. Her husband had gone to town leaving Mrs. Lay and her baby alone. The stranger attacked her in the kitchen, threatened to kill her and tied her hands with a dish rag. She lost consciousness and did not recover until half an hour later when she telephoned her husband. The assailant was not apprehended.

Dedication of Fair Building. Lancaster County—Secretary Melior of the state fair board is sending out hundreds of postal cards bearing pictures of the new coliseum on the state fair grounds asking recipients to be present at the dedication of the building, September 5. The funds for the buildings, a glass, steel and brick structure, were provided by the last legislature.

Monroe Man Found Dead. Platte County—John Munter of Monroe, was found on the porch of a rooming house in a Columbus dying from the effects of a dose of carbolic acid, taken with suicidal intent. He died from effects of the drug.

Lient. Bridges on Furlough. Johnson County—Lieutenant T. W. Bridges, who recently graduated from the national military academy at West Point, is visiting at the home of his parents, Mr. and Mrs. J. W. Bridges, in Sterling. He is enjoying a three months' furlough, at the end of which time he expects to be assigned to duty either in the Philip pine islands or in Alaska.

Killed in a Wreck. Daves County—Burlington train No. 96 collided with an extra freight between Belmont and Crawford. Fireman Keenan and three tramps, who were beating their way, were killed. Engineer McWade was scalded badly on the legs, and baggage-man Baughman had both legs broken and head and face cut badly.

Elevators Destroyed by Fire. Red Willow County—In a fire that broke out at McCook early probably smoldering all night, the 1,000 Grain company's elevators and co. sheds were entirely destroyed.

York Wheat Market. York County—The first load of 1914 wheat has been marketed here. The quality is No. 1, although graded No. 2, and weighed sixty-two pounds to the bushel. The average yield is from twenty to twenty-seven bushels per acre in this county.

Fourth of July Victim. Butler County—A 10-year-old son of B. G. Chapman of Superior was buried as the result of an early celebration of the Fourth. He was wounded with a blank cartridge, resulting in blood poisoning.

Ponca Farmer Kills Himself. Dixon County—Theodore Rahn, a prominent and wealthy farmer, committed suicide in Ponca by shooting himself through the head. He had been despondent for some time because of ill health.

Novelty. "I thought you told me you had something original in this libretto," said the manager, scornfully. "Here at the very outset you have a lot of merry villagers singing. We are happy and gay!" "You don't catch the idea at all!" replied the poet, wearily. "The 'I' is soft. It should be pronounced 'happy' and 'gay'."

SOFT, WHITE HANDS May Be Obtained in One Night.

For preserving the hands as well as for preventing redness, roughness and chapping, and imparting that velvety softness and whiteness much desired by women, Cuticura Soap, assisted by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids, or at occupations which tend to injure the hands, it is invaluable. Treatment—Bathe and soak the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Cuticura Ointment on thin pieces of old linen or cotton. Wear during the night old, loose gloves, or a light bandage of old cotton or linen to protect the clothing from stain. For red, rough, and chapped hands, dry, flamed, itching, feverish palms, and chapped heels, with painful finger ends, this treatment is most effective. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., sole proprietors, Boston, Mass.

His Big Bill. Guest—How long is this lease of your hotel to run? Hotel Clerk—What lease? Guest—The one I just gave you the money for.

Mrs. Winslow's Soothing Syrup. For children teething, soothe the gums, reduce inflammation, allay pain, cures wind colic, soothes the bowels.

Many of us have cause to be thankful for what we don't get. Dr. Pierce's Peppermint, small, sugar-coated, easy to carry, regulate and invigorate stomach, liver and bowels and cure constipation.

Lots of marriages merely demonstrate that misery loves company.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS
